

EFFORT TO REACH AGREEMENT ON SUBS HAS BEEN ABANDONED

France Refuses to Recede from Her Position on Underseas Craft—Sharp Exchange Occurs Between Balfour and Saurraut—Other Matters Taken Up by Conference

(By The Associated Press)

WASHINGTON, Dec. 28.—Efforts to reach an agreement for limitation of submarine and auxiliary ship tonnage were abandoned today by the arms conference naval committee after a naval program fixing French limits at 90,000 tons in submarines and 330,000 tons in auxiliary vessels had been announced to the naval committee of the armament conference for the French government by M. Saurraut, heading the French delegation.

It was followed by expressions of disappointment from the American, Italian and Japanese delegations that no agreement was possible and by a warning for the British group by Arthur J. Balfour, that Great Britain must regard the French submarine program as "a very great menace" to British security. For the Italian group, Senator Schanzer also spoke of the "serious pre-occupations" of Italy, because of the "economic sacrifices" and the political consequences which the French naval program might produce.

NEWSPRINT GETS IN LIMELIGHT AT TARIFF HEARING

Paper Company Official Attacks Publishers

(By The Associated Press)

WASHINGTON, Dec. 28.—Senate tariff hearings were enlivened today by an attack on American newspaper publishers by Col. William E. Haskell of New York City vice-president of the International Paper company and a counter-attack on the newspaper paper manufacturers by William J. Pape, publisher of the Waterbury, Conn., Republican, speaking for a number of small publishers, who he said organized a joint buying corporation because many were "unable singlehanded to assist themselves in an endeavor to obtain fair priced newsprint."

Urging a tariff protection for his industry against European competition, Colonel Haskell said congress "gradually had yielded to the clamors of the paid agents of the publishers," until finally all tariff on newsprint had been removed and the industry abandoned to drift in the ebb and flow of international competitive tide.

Declaring newsprint was the only product of the paper making industry "which had been deprived of all protection and be-deviled by inspired federal regulation and interference," he said the reason for invidious treatment this branch of the industry has suffered is obvious.

He added that "the fact that the press can control legislation and invoke unwarranted regulations, restrictions and interferences for its own selfish interests constitutes a grave charge of undue influence and special privilege."

The charge that any "undue influence" had been used by the publishers in arguing for the placing of newsprint paper on the free list was denied by Emory Thomas of Chicago speaking for the American Newspaper Publishers' association. He declared the publishers had based their argument on the economic ground of the ability of American newsprint manufacturers to supply domestic consumption.

Publishers, he added, have been violently weak when fighting for a fair priced newsprint, and declared that on no less than three occasions in the last ten years prices had soared to undreamed heights and that nothing had "stayed the demands imposed by certain of those who control the supply of newsprint."

DRAFT IS MADE FOR REVISION OF CHINESE TARIFF

Was Presented Yesterday by Senator Underwood

(By The Associated Press)

WASHINGTON, Dec. 28.—The draft of an agreement providing for an upward revision of the Chinese customs tariff, drawn up by Chairman Underwood and presented yesterday to the subcommittee of the Washington conference dealing with this question, was adopted in principle today, but in a somewhat changed form. At another session the draft is expected formally to be agreed to, after it has been put in final shape.

In effect China will be granted a five per cent effective ad valorem rate, it was said, with a two and one-half per cent surtax, as soon as a new ad valorem schedule can be worked out by tariff experts, which would bring the present nominal five per cent tariff up to the effective figure.

This cannot be done, however, a Chinese delegate said tonight, in time to make the new rate with the surtax effective by Jan. 1, 1922, the date on which the Chinese declared it would be necessary to meet the existing crisis in the Chinese government's financial condition.

In addition, the subcommittee agreed there should be periodic revision of the tariff schedule on the basis of the seven and one-half per cent effective rate in order that ad valorem basis be kept up to date.

A future conference, it was added, would be provided for among the powers with China to work out a plan looking to the abolition of the likin (Chinese internal tax) so that a twelve and one-half per cent tariff might be permitted in China.

The British, it was said, had opposed the American contention that China would have been permitted to impose on Jan. 1, 1922, a levy of twelve and one-half per cent, unless the likin was first abolished. Pending this the British were willing to grant seven and one-half per cent while Japan declared a five per cent effective rate, was the utmost she could agree to.

The Chinese declared themselves ready to remove the likin but insisted China could not do this until she was permitted an increase of revenue to relieve the present financial embarrassment and to care for the administrative expense involved in a radical change in the Chinese local tariff and treasury system.

BLAKE HENDERSON OF FULTON COUNTY IS SPELLING CHAMP

Sassafras is the Stumbling Block for His Opponents

(By The Associated Press)

SPRINGFIELD, Ill., Dec. 28.—Blake Henderson, eighth grade pupil in the public school of Cuba, Fulton county, won the grammar school spelling championship of Illinois tonight when he spelled "sassafras" correctly.

Four of the forty-four contestants who started in the championship contest had perfect records on 325 words when the eleventh test began.

Two boys and two girls entered the finals. After misspelling "sassafras" Frances Redding of Pochontas won second place from Fred Painter, of the North school near Stronghurst, Henderson county, by missing only two words in the contest for second honors, while her rival missed three. Both misspelled "pick-nicking" the girl also missing "bologna," while the boy fell down on "insignias" and "cemetery."

Merle Shoop of the Mount Vernon city schools was the last speller to stay with the three winners. She was eliminated in the finals when she misspelled "hazardous" and "pension" in addition to "sassafras."

Blake Henderson is the youngest of the four who entered the finals. He is twelve years of age, while his rivals are thirteen. His victory tonight was a triumph for the boys who were in the minority. Only twelve of the forty four starters were boys.

The 1920 winner was a girl—Velma Rhodes of Benton. "Mortise" and "glycerine" proved the most difficult words for the spellers today. Each word was misspelled by four contestants. No word, however, appeared as an outstanding puzzler, over sixty different words being missed.

The winners received medals at the opening session of the Illinois Teachers association here tonight.

RADICAL MOTION IS DEFEATED IN INDIAN CONGRESS

Provided for Complete Independence from England

(By The Associated Press)

AMHEDABAD, British India, Dec. 28.—An attempt to force the adoption by the Indian national congress today of a motion, providing that complete independence from the British empire should be attained by "possible and proper means," instead of by "legitimate and peaceful means," was frustrated by Mahatma Gandhi, the nationalist leader, who warned the congress against alienating the sympathies of the moderates.

A special committee of the congress rejected the proposal by an overwhelming majority and adopted Gandhi's resolution in favor of maintaining the existing creed of non-violence. When an attempt was made to move the extremist amendment in the full congress, the president ruled it out of order.

Twelve thousand persons attended the congress. Hakim Ajmal Khan, who presided in the place of C. R. Das, the president of the congress, who was arrested recently in Bengal, said he welcomed the government's policy of repression, which had strengthened the intention of the Indian people to continue their struggle vigorously.

Neither miners nor other union officials would discuss the situation. George W. Savage, secretary of the miners' organization, asserted however, there would be no strike before April 1.

THOUSANDS GREET EUGENE V. DEBS ON HIS RETURN HOME

Socialist Leader is Given Cordial Welcome at Terre Haute—In a Brief Address Says That He Will Not Rest Until All Political Prisoners are Released—Shows Emotion

(By The Associated Press)

TERRE HAUTE, Dec. 28.—Welcomed by the cheers of thousands of followers, friends and neighbors, Eugene V. Debs, the Socialist leader, returned home tonight after an absence of about three years spent in the federal prison for his anti-war speech in 1918 when America was at war and responded to the greeting with a speech from the front porch of his home pledging again that he would not rest until those now serving prison terms are free.

"I have a heart for my fellow prisoners left behind me at Atlanta," he said, "and I shall not rest in peace until they are restored to their loved ones."

Mrs. Debs was not at the railroad station to meet her husband preferring their reunion to be in the privacy of their home. Mr. Debs, who was released from the Atlanta prison last Sunday by presidential commutation of his ten year sentence was delayed in reaching here by a two-day visit to Washington, and an afternoon stop today at Indianapolis.

A long line of marchers escorted him from the station to home and then wended its way into the downtown district to continue a demonstration estimated the participants a number from 10,000 to 15,000.

The parade moved direct from the railroad station to Debs' home, only a short distance with the socialist leader riding bareheaded on a motor truck. When the truck drew up in front of the home, Mrs. Debs appeared on the porch, but she soon retreated to the interior as the swarming crowd separated her from her husband. Finally, when he had jammed his way to the porch, she rushed out to embrace him. Then he turned to the welcoming throng to thank it for the demonstration.

"Home again," he said, in a voice shaking with emotion, "I thank everyone of you for the efforts you have been putting forth so long in my behalf. You have succeeded at last. But I am not free so long as any are in prison. I hope to devote my life to the liberation of those who are imprisoned and I shall know no rest until they are restored to their loved ones."

"In my heart," he said, "there is no bitterness only a resolution not to yield but remain true to my honest convictions and to my ideals."

His statement was made following the publication today of demands alleged to have been made by Japan upon the Siberian republic, demands which the Japanese minister characterized as untrue.

FINISH HEARING IN HOWAT-LEWIS INJUNCTION SUIT

(By The Associated Press)

KANSAS CITY, Dec. 28.—Hearings were conducted today in the injunction suit brought by Alexander Howat, August Dorchy and others against John L. Lewis, international president of the United Mine Workers of America and the Southwestern Interstate Coal Operators' association.

Judge Samuel A. Dew of the circuit court of Jackson county gave lawyers for the plaintiffs until January 6 to file briefs in the case and attorneys for the defendants until January 11, to file briefs in answer.

Shortly after January, Judge Dew announced, he will hand down a decision as to whether to make permanent an injunction granted Dec. 3, which restrains Lewis and other international officials of the mine workers' union from setting up or continuing a provisional district regime of the union in district 14, and restrains operators from interfering with the checkoff system, in so far as it affects the payment of union dues and revenues into the Howat district treasury.

Most of the day was devoted to arguments of lawyers, after A. W. Kerr of Springfield, Ill., of Howat counsel, had declared that the whole case rested upon the fact that Howat and his associates had been removed from office without the hearing or trial which the international constitution of the United Mine Workers requires before such action may properly be taken.

Cyrus Crane, counsel for the international union of the mine workers said the gist of the whole case was in the nature of a partnership, in which one partner, the international organization of the United Mine Workers was attempting to enforce compliance with the terms of a contract duly entered into with the operators of Kansas, while the Howat district officials, who were partners in the contract were openly violating the contract.

There is talk these days of a census in 1925 because that taken in 1920 was unsatisfactory in so many ways. As the information of that census is announced from time to time, it is realized how distorted are the facts by comparison with normal. After the war conditions are reflected all the way thru and it is for that reason that the census failed in very many ways to give an accurate picture of conditions in the United States. Since 1920 there has been a great shifting of population, not only as to places of residence but as to employment.

When it comes to the real value of the census only the initiated can furnish the argument. For the average man the census ap-

SOME THOTS ABOUT TAXES
The tax books will not be ready for the collector as early as usual this year because of certain delays in the receipt by the county clerk of the necessary information for tax extension. But that merely puts off the day of tax payment a few weeks and the property owner thus has only temporary relief.

The fact that the Jacksonville rate will be 65¢ higher than last year will cause some grief but the city is by no means conspicuous on account of this higher rate, for the condition is common in cities of this size and larger.

Expenses for public business have steadily increased and people constantly demand more in public service paid for with tax money. There is not much chance of lower taxes until people curtail their demands and expectations from municipal, county and state governments. When you are inclined to sorrow over the size of your tax bills you may gain some solace by thinking for a moment of what your condition would be without the conveniences and improvements, the cost of which your taxes represent. Road improvements and bridges in the country and in the city street pavements, sidewalks, sewers, lights and perhaps a half dozen other things you could enumerate are all made possible thru taxation.

THE LANGUAGE OF THE SOUTH
Judge Hull, the new chairman of the Democratic national committee, is a real southerner judged by the florid language of his first public address, given at Nashville last night. The chairman refers to the eight years of President Wilson's reign as "The unparalleled achievement of national democracy." He found everything glorious done in that eight year period and nothing accomplished since.

It will bring a great deal of joy into the Republican ranks to read some of the paragraphs from that speech and to realize that a man so biased—so provincial in his ideas and knowledge—is at the head of the national Democratic organization.

Note this one paragraph by way of proof:
"It is beyond the power of wholesale abuse, falsehood and deception long to dim the glory of the eight years' unparalleled achievement of the national democracy. The work of constructive patriotic statesmanship accomplished by the party will stand out in clearer perspective during the coming years. The Democratic party emerged from that almost superhuman ordeal with flag flying, with doctrines sound and pure, with a record of undying fame and with cheerful hope for the future."

MARRIAGE VOWS SAID IN PASADENA
Miss Sarah B. Harris is Bride of Mr. Richard Y. Rowe—Ceremony Took Place at Noon Wednesday.

In a home made beautiful with flowers that California so generously provides, the marriage of Mr. Richard Y. Rowe, of this city, and Miss Sarah B. Harris, was solemnized at Pasadena at noon Wednesday.

Only near relatives and close friends were present for this impressive ceremonial, which took place at the residence of the parents of the bride, Mr. and Mrs. E. K. Harris, 150 South Grand avenue.

The service was read by Rev. Robert Freeman, pastor of the First Presbyterian church, with which the Harris family is identified. Miss Edna Harris, sister of the bride, was the maid of honor and there were no other attendants. An orchestra played the wedding music, both before and during the ceremony and the service had all the dignity that simplicity can give, altho the floral decorations lent a wealth of color to the scene.

Mrs. Rowe, who is known to many Jacksonville people, until recently was dean of women of Cummock school at Northwestern university, a position which gives a suggestion of her literary attainments. In student days and subsequently she was prominently identified with the Kappa Gamma sorority, and is now serving as national president. A woman of great personal charm, she will be a decided addition to the social life of Jacksonville.

Mr. Rowe holds a place of prominence among the younger business men of Jacksonville and he is credited with being a large factor in the remarkable growth of the business of the Cloverleaf Casualty company of which he is the secretary. Mr. Rowe is also identified with an automobile insurance company of which he was one of the organizers. Ever since his college days Mr. Rowe has shown an indefatigable interest in business but at the same time he has kept identified with public affairs. He is serving as a member of the city council, without pay, and by practically unanimous vote was elected as president of the chamber of commerce. His own enthusiasm had much to do with the re-organization plans under which the chamber of commerce is now operating. Those who know Mr. Rowe best count him every whit a man and he is without doubt one of the citizens that Jacksonville can properly label as valuable.

Mr. and Mrs. Rowe are taking a brief automobile trip to California cities but will very soon start their train journey for this city. They will be at home after the middle of January at 216 Caldwell street.

DAIRYMEN HAVE FORMED ASSOCIATION
Held Meeting Wednesday Night When Officers Were Chosen—Addresses Made on Dairy Feeding Methods.

The Morgan County Dairymen's association was organized Wednesday night when a large number of dairymen met at the farm bureau office. The election resulted in the choice of the following:
President—E. E. McPhail.
Vice president—J. W. Theobald.
Secretary-Treasurer—Howard Stevenson.

A constitution and by-laws were adopted and various matters of business were given consideration. Then the members listened to a very informing address given by G. E. Chechomier of the Farmington, St. Louis, on "Feeding." At the present time of depression in farming affairs, particular attention is being given to dairymen and with gratifying results. Aside from the quality and care of cows, results depend upon proper feeding and the speaker last night gave the dairymen some valuable information.

Associate County Agent Rucker was present to aid in the work of organization.

SEN. MEENTS COMING FOR FORUM MEETING
Visitor Actively Identified With State Road Program—Colonel Miller of State Department of Public Works Also Expected

What promises to be one of the most interesting and important meetings of the forum of the chamber of commerce will be held Tuesday, Jan. 24, when Senator Meents, of Ashkum, Ill., will make the principal address. It is expected that Colonel Miller, of the state department of public works, will also be present and take part in the program.

For several weeks President R. Y. Rowe, of the chamber of commerce has been making an effort to secure the presence of these visitors and yesterday a letter received by Secretary Welch, from Senator Meents, fixed Jan. 24, as the date for their coming.

Senator Meents has had a prominent part in the doings of the last general assembly and he has been actively identified with the hard road movement in the state. He introduced the administration bill which passed the last general assembly, which made it possible for counties themselves to take the contract for hard road work. The bill also has in it other provisions, which were very forceful in reducing the bids made for hard road construction.

Colonel Miller's active work in hard road development is a matter of general knowledge.

OBSERVE SIXTIETH WEDDING ANNIVERSARY
Mr. and Mrs. James Bourn Were Married Sixty Years Ago—Day Observed Quietly at Home.

On December 28, 1861, James Bourn and May Richards were married in Jacksonville at the home of the bride's uncle, Henry Cocking, at his home on East State street by the Rev. Hiram Ruck, then pastor of First Church, now Grace M. E. church.

So Wednesday, December 28, 1921, marked the sixtieth wedding anniversary of this well known couple who have lived in Morgan county, in or near Jacksonville all these years.

When first married, they went to a farm five miles north of the city where they resided for over twenty years. They then moved to 846 Routt street where they continually resided.

As both are rather feeble in health no special celebration of the event was planned but they received calls and congratulations from many friends.

The groom of sixty years shows with pardonable pride the coat of his wedding suit, which was made by the late Robert Buckthorpe in the tailor shop of Henry Cocking, where now the Jacksonville Tailoring company is located and on this occasion he was presented by T. H. Buckthorpe with a vest made at the same shop.

It is needless to say that the gift was much appreciated. In these late years of their happy married life these old people are living in the light of each other's care, tenderly nursed as two children by their only daughter, Miss Amelia Bourn. To her, in a great measure, belong their happiness and good health.

This aged couple has seen many changes in Jacksonville. The little old frame store and dwelling in the rear has long since passed away but the memory of that day in December, 1861, is to them as a happy event of the days gone by.

ATTENDED OLD SPAULDING SCHOOL
Jacksonville, Ill., Dec. 28.—To the Editor of The Jacksonville Journal: In reading The Journal of Wednesday, Dec. 28, I looked over George W. Fox's memories of old Jacksonville.

One paragraph of the letter speaks of Mr. Spaulding's school, on South East street, asking if any one is now in this city, who attended that school.

I attended this school, tho I was only a child of probably eight or ten years of age. I remember one scholar, especially, Dave Shreves, who was a special favorite with the girls and boys, was one of them. He was clever, gentle and thoughtful of others, altho he was a cripple.

I also remember the old east cellar door, which proved to be a place of special attraction for a "sliding down" place and the old-fashioned garden; how vividly it is brought before one, at the reading of Old Jacksonville. And the old brook still meanders thru the meadows as of old.

Is the old bridge on Mauvalterre street, where we used to dance the quadrilles, back of the old Fox place on South Main street, where it used to stand, still there?

I think Mr. Fox is mistaken in regard to the old Presbyterian church burning in 1861, or was it burned twice? I remember Mr. Hammond holding revival services in that church later than that year, along in 1876 or later.

Yours, for Jacksonville,
A long-time resident.

"Economy" in today's language means "spending wisely." Mere initial saving on the purchase price doesn't necessarily mean economy. Oftentimes it means waste—extravagance.

The ancient Greeks, who contributed the word economy to civilization, also builded the finest examples of economy in the history of the world.

The beautiful Parthenon at Athens, Greece, was built nearly 2400 years ago. Consider its endurance in relation to its original cost. That's real economy.

To secure the greatest economy and satisfaction in your purchases, you must KNOW the character and reputation of the man who makes the merchandise you buy.

When you buy ALBERT RENNER made clothes your investment represents real economy. Constructive economy is built into ALBERT RENNER clothes, and this economy finds its reward in endurance, because it is based on sound workmanship.

It will be a pleasure to show you fabrics and examples of workmanship, at the shop of ALBERT RENNER. Won't you come in?

And it's "healthy heat" the
"Kiddies" require if they
are to grow into strong, big

Thru John S. Kent, of Broc-
ton, Mass., the manufacturers'
association asked for a 15 per
cent duty on shoes and boots,
declaring this was necessary to
equalize difference in labor costs
in the United States and foreign
countries. Mr. Jones declared a
majority of the manufacturers
did not want a duty on shoes.

Members of the committee sug-
gested that there be a duty on
hides with a compensatory rate
on shoes, but Mr. Jones declared
there could be no compensatory
duty. He asserted that with an
import duty imposed, foreign
manufacturers could buy hides in
the American market cheaper
than the domestic manufacturers
could and the export business of
the American manufacturers
would be destroyed.

**AFTER TWENTY SIX
YEARS OF MARRIED
LIFE GETS DIVORCE**

Mrs. H. F. McCormick is
Granted Divorce in
Chicago

(By The Associated Press)
CHICAGO, Dec. 28.—After a
married life of twenty six years,
Mrs. Edith Rockefeller McCor-
mick, daughter of John D. Rocke-
feller today obtained a divorce
from Harold F. McCormick in
what was said to be a record time
in Chicago courts. Fifty minutes
elapsed from the time Mrs. Mc-
Cormick filed her bill until the
decree was signed by Judge
Charles A. McDonald.

Mrs. McCormick appeared in
court and filed her bill which
told her husband was deserting
her on May 27, 1918, in
Zurich, Switzerland. A few min-
utes later Mr. McCormick's at-
torneys filed an answer admitting
the charge of desertion and less
than five minutes later the hear-
ing was started.

Mr. McCormick did not appear
in court.

Mrs. McCormick was asked less
half a dozen questions by her at-
torneys eliciting the statements
necessary to sustain the bill. She
testified she was married in 1895
that Mr. McCormick left her in
Zurich in 1918 and that he had
since failed to provide for her.

The decree contains no alimony
provisions, but according to Clar-
ence Darrow of Mr. McCormick's
counsel an agreement had been
made in advance on a property
division, but Mrs. McCormick's at-
torney denied this.

HEAD OF CHARGES**

LaFollette's Charges Based
On Misinformation
He Says

(By The Associated Press)
KANSAS CITY, Mo., Dec. 28.—
Charges made Tuesday by Sen-
ator LaFollette of Wisconsin,
that railroad officials and repre-
sentatives of coal and steel and
leather interests had, at a secret
meeting in Washington, Dec. 9,
obtained an agreement from cer-
tain representatives of farm or-
ganizations to cease agitation for
repeal of that section of the
transportation act, relating to
railroad valuations and for res-
toration of state control of state
rates were based upon "misinfor-
mation," a statement tonight by
W. I. Drummond, chairman of the
board of governors of the
international farm congress, de-
clared.

"The agricultural representa-
tives contended thru out for a
further and larger reduction of
rates," the statement said.

"The object of these confer-
ences as far as the farm organ-
izations representative are con-
cerned, is to procure the great-
est possible reductions on freight
rates with the least delay. They
have at no time waived any of
their rights or entered into any
agreement direct or implied,
that will hamper them in fighting
for what they cannot get thru
persuasion and cooperation."

**SMALL LOSS IN
K. C. EXPRESS ROBBERY**

Kansas City, Dec. 28.—Agents
of the Missouri Pacific railroad
tonight announced they were with-
out definite clues as to the
identity of two young men who,
according to L. H. Holland, ex-
press messenger last night looted
the express safe of Train No. 209,
Joplin to Kansas City, dumped the
contents of the safe into a gunny-
sack and escaped after shooting
Holland in one leg.

Official estimates placed the
loss of \$2,000 in cash and pos-
sibly double that amount in se-
curities, most of them non-nego-
tiable.

vention will be held at the Sher-

cluded Ralph W. Peters of Peoria

**SUFFERING FROM
OVER EXPANSION
BANK HEAD SAYS**

That is the Trouble and
Not Lack of
Credit

ST. PAUL, Minn., Dec. 28.—
The farmers are not suffering
from a lack of credit, but over ex-
pansion, E. G. Quamme, president
of the federal land bank of St.
Paul told the joint congressional
committee on short time rural
credits here today. Mr. Quamme
questioned the necessity of creat-
ing a machine for credit purposes
for agricultural interests when
they are already paying, he said,
more interest than they can meet.

The committee of which Repre-
sentative Gilbert Haugen of Iowa
is chairman, concluded the first of
a two day hearing here tonight.

"Farmers may need money, but
if they get it, you should not call
it credit, but charity, Mr. Quamme
replied to the question of State
Senator Magnus Johnson of Kim-
ball, Minn., who said the farmers
had borrowed the limit and asked
if new machinery should not be
created for credit purposes.

Regarding the federal land bank
loan organizations Mr. Quamme
said that 50 per cent of the
farmers loan associations are
so organized that it is not safe to
make loans on their reports and
the federal appraiser's report
must be relied upon. He
said the land banks have lent
560,000,000 on farms in the past
few years or about an eighth of
the total of such loans.

Representative J. C. McLaugh-
lin of Michigan and Clarence
MacGregor of New York and
former Senator A. J. Gronna of
North Dakota were other mem-
bers of the committee in attend-
ance.

When Mr. Johnson urged a
reduction of railroad rates to
bring about better conditions Mr.
Haugen explained that congress
had nothing to do with railroad
rates, that the interstate com-
merce commission had charge. Mr.
Haugen told of agricultural meas-
ures congress had passed for the
benefit of farmers.

R. E. Wilkinson, leader of the
"Farmers' bloc" in the Minne-
apolis legislature of 1921 charged
that federal regulations make it
impossible for cooperative asso-
ciations to do business at the
South St. Paul stock market, be-
cause of the patronage dividends
to shippers. He said the Minne-
sota cooperative plan has been
carried out on broad lines, so
that refund to non-members are
possible but he doubted if these
would be possible if federal con-
trol continued to be directed on
for South St. Paul.

The hearing will be resumed to-
morrow.

(By The Associated Press)
SPRINGFIELD, Ill., Dec. 28.—Enforcement of all laws irrespective of sentiment for or against them as long as they remain on the statute books is the iron clad duty of county prosecutors, State's Attorney Charles E. Lauder of

Carl E. Robinson

WANTS PIGS TO LIVE IN STYLE

(By The Associated Press)
CHICAGO, Dec. 28.—Pig sties constructed after the Gothic style of architecture were favored by Fred C. Fenton, associate professor of agricultural engineering of Iowa State College, in an address before the American Society of Agricultural Engineers today. Proper arrangement of windows and lighting with sun parlors, were also advocated by the speaker.

A great percentage of farm water from shallow wells and cisterns is impure, E. W. Lehmann, head of the department of farm mechanics, University of Illinois told the engineers.

"I found in a survey I made in Missouri, 52 out of 50 supplies contaminated," he said. "In Iowa practically all the shallow wells were contaminated and practically none of the deeper ones."

Professor Lehmann urged the farmer to consider the depth and location of his well, to protect its source of supply and to filter and sterilize the water in the absence of specific treatment.

COURT OF APPEALS DECISION FAVORS CO-OPERATIVE HEAD

Rules That Parker and Co-Defendants Are Trustees

(By The Associated Press)
CHICAGO, Dec. 28.—Harrison Parker, head of the Co-operative Society of America today won two of three points decided by the United States Court of Appeals which decided legal points involving bankruptcy proceedings against the society.

One point brought out in the appellate court's decision was that the society is a common law trust and Parker and co-defendants in the bankruptcy proceeding are trustees.

The court of appeals ruled that District Judge Evan Evans had no right to place receivership proceedings in the hands of a master in chancery before he had passed upon the fundamental legal points involving bankruptcy proceedings against a common law trust. The appellate court also held that the petitioners in bankruptcy had failed so far to show fraud.

The contention lost by Parker was that no court had the right to hear bankruptcy proceedings against a common law trust. The decision was that court had this right under certain circumstances. Judge Evans is directed to certify the order of reference and to sustain the defendant's motion to dismiss the complaint. The district court is given permission to fix the time and terms of filing an amended complaint.

Upon the district court's decision depends the continuance of the investigation conducted for several months by attorneys representing the Central Trust company of Illinois, receivers.

"This unfavorable circumstance can often be prevented," he said, "by relieving prospective mothers of ordinary duties for some time before confinement."

CHINESE PEOPLES' ORGANIZATION IN OPEN STATEMENT

Say That Japan Has No Intention of Complete Restitution

(By The Associated Press)
WASHINGTON, Dec. 28.—A group of Chinese calling themselves delegates of the "Chinese Peoples' Organization in Washington," issued a statement tonight declaring the proper place for a satisfactory settlement of the Shantung question was in the conference on far eastern question and not in the direct conversations which they say have reached a deadlock.

The signers allege the Japanese have not shown any real intention of making any complete restitution of China's right, alleging that on the railway, which is the most vital issue, they have from the first endeavored to make restoration a nominal one.

"There can be no settlement of the Shantung question," the statement says, "until the railway is completely restored to China, and there can be no complete restoration of the railway until China has complete ownership and management."

In official Japanese quarters it was declared Japan would make no further concessions on the railway question, but there was still hope that a formula of settlement would be discovered.

What's What in Men's Fine Clothing

No suit of clothes is better than the tailoring that's in it, no matter how crisply new its appearance may be.

No suit of clothes can really fit, can really hang as it should, unless it is made for the man who wears it.

Quality is the fundamental thing about a suit of clothes—it is the only thing in your suit that endures.

Price is actually incidental, for without quality the cheapest price is an extravagance.

Visit our shop this week and see the display of beautiful imported and domestic fall fabrics, affording you a really "Big City" selection at small town prices.

The workmanship on every Wehl garment is of the quality that endures.

SUNDAY SCHOOL CLASS MAKES TOUR

W. H. Crum Takes Class to Number of Institutions in the Business Part of the City.

W. H. Crum of Sandusky street, took his class of boys from the Central Christian church on an educational and observational tour of the city Wednesday.

The boys first went to the county jail, where they talked to some of the prisoners and inspected the quarters. When they were taken into the old part of the jail many of them shuddered at the thought of being confined in such a place. Sheriff Weatherford was very hospitable to the boys and they were much impressed with their visit.

From the jail they went to the Avers bank, where Mr. Butte kindly showed them around. They made a trip to the roof, many of them for the first time, and obtained a bird's eye view of the city.

The Elliott State bank was the next stopping place. Mr. J. Wier Elliott was more than kind to the boys. He took them thru the bank, showing them the vault, the time locks, and the safety box system. The system of book-keeping used in the bank was simply explained giving the boys some valuable and instructive information. While in the vault they were shown a bag of gold worth five thousand dollars, and each boy was allowed to hold it. They were then handed a sack of pennies, fifty dollars worth, and were surprised to find it much heavier than the gold.

Mr. Crum then took them over to the K. of P. hall where they saw many interesting things. Everywhere the boys were given every kind attention and hospitality.

CONFER ON GIFT GRAIN CAMPAIGN

Rev. W. H. Marbach Issues Appeal to Morgan County People—We Have Surplus While Others Are Starving.

Morgan county chairman for Near East Relief, Rev. Wm. H. Marbach, a field representative of the state office of Near East Relief, and others were in conference yesterday regarding a gift grain campaign for the county. The state department of agriculture reports the corn crop of Morgan county as 57,000 bushels. One bushel out of every 100 grown would mean four carloads of corn.

The need of the widows and orphans of Armenia and the Near East is so acute that many times this amount of grain could be used from all the corn counties of Illinois.

LaSalle, Iroquois and Champaign counties have already got their grain campaign under way. The conference held here will probably result in the adoption of the same plan found successful elsewhere. This plan contemplates a vice-chairman in charge of the grain campaign who works with Rev. Marbach and his committee already selected.

The grain vice chairman in turn will have assistants and solicitors in each rural community to take grain pledges, arrange for grain delivery to the local elevators, and otherwise assist in seeing that Morgan county farmers have opportunity to give of their surplus grain to save the life of some child in Armenia or the Bible Lands.

Every bushel of grain contributed will be made into corn products and sent abroad. It will not be sold, and later compete with the other grain which our farmers may have for sale. Any kind of grain will be accepted. Corn, oats, wheat, barley, beans, etc. Corn and wheat products only will be shipped. Any oats, barley or beans will be exchanged for corn. The corn will be shipped to the nearest cereal mill, there to be made into hominy, grits, corn meal and corn flour. These products will then be shipped to the port from which the next relief ship will sail. Every bushel of corn contributed will go to the starving ones of the Near East in some of these forms. No milling costs or freight charges will be deducted. The by-products will be converted into more food stuffs so that 100 per cent of the grain contributed will be shipped overseas.

The last relief ship sailed from New Orleans on Dec. 3, and carried 5575 tons of relief supplies. Of these the principle items were 3000 tons of corn products, 1275 tons of flour, 330 tons canned milk, 134 tons corn syrup, 650 tons of coal and other supplies in much smaller ton quantities.

Last week one country in Nebraska in one day shipped out 14 cars of corn. This will help to make up the cargo of another relief ship which will sail before Jan. 15.

At present the Near East Relief is caring for our 100,000 orphans in 175 orphanages, and is feeding a second 100,000 orphans one meal daily at soup kitchens. When we come to see that there are more than 500,000 widows, orphans and destitute refugees who will starve unless we feed them, the need of the grain contributions from Morgan county become more and more apparent.

Rev. Marbach as county chairman of the Near East Relief will doubtless make announcement of further plans for this grain campaign, as soon as such plans are completed. Probably the plans will include the showing of three reels of moving pictures entitled "Alice in Hungerland." These pictures show actual conditions both within and without the orphanages.

This is not a cash contribution campaign similar to that recently conducted. It is a grain contribution campaign and every citizen of Morgan county having grain is asked to contribute.

Tiny bony fingers are eagerly stretched out across the seas. Will you be one of the givers? How much grain will your gift be? Five bushels of corn will save a life. How many lives will you save?

BAPTIST SCHOOL OF MISSIONS

An important question will be answered in pictures on Sunday night at the opening session of the Baptist school of missions at the First Baptist church.

Hundreds of Baptists in Morgan county, are asking the query, "Where did my New World Movement money go?" The Baptist board of promotion does not propose that this question shall go unanswered, and accordingly, on next Sunday evening at 7:30 o'clock, stereopticon views will be shown of the places where your money is being applied.

This service will follow the study hour.

At 6:30 o'clock, five study classes will assemble in the basement of the church, and after the opening exercises, will go to their respective rooms for the study of five mission books. This study will be completed in six Sunday nights.

To add to the novel features of the school of missions, the women's missionary society will put on a missionary play entitled "Aunt Polly Joins the Missionary Society" and the Baptist young people's union will have a missionary mock trial.

These classes and missionary services are open to the public, and those not attending other churches are most cordially invited to this missionary school.

TRADING IN STOCKS ACTIVE AND BROAD

By Associated Press.
NEW YORK, Dec. 28.—Trading in stocks today was active and broad, a firm to strong tone pervading every division during the early and intermediate periods. Much of the advance which ranged from one to three points was cancelled later, however, on the unexpected rise of call loans to 5 1/2 per cent. Equipments, oils, motors and metals again were the leaders, but rails, shipping, steels and food specialties participated in more than moderate measure. The strength of sugars was surprising in view of the lower prices quoted for raw and refined products.

Among rails transcontinentals led with Reading and other coals, also St. Louis and Southern preferred and several of the junior eastern issues. Further postponement of dividend payments by Pittsburgh, Cincinnati and Chicago and St. Louis (Pamhandle) indicated earnings, still leave much to be desired. Sales amounted to \$0,000 shares.

Foreign exchanges reacted to the more uncertain political advice from abroad, the Paris rate being the only allied remittance to show firmness. All but one issue of the Liberty group closed at gains and the general bond list was active, strong and broad. Railroad bonds made appreciable gains. Total sales, par value, aggregated \$16,750,000.

Chicago Livestock Market

By Associated Press.
Chicago, Dec. 28.—Cattle—Receipts 4,000. Beef steers mostly 25c higher. Some up more; top \$8; bulk good steers \$6.50 @ \$8; stock 15 to 25c higher. Bulls strong; veal calves mostly 50c higher. Bulk vealers to packers \$8.25 @ \$8.50; stockers and feeders firm.

Hogs—Receipts 23,000. Generally 10 to 20c higher than yesterday's average on lights and medium weights to shippers, yard traders and small packers; big packers did not follow; closing weak on heavy kinds; top \$8.25 for 160 to 180 pound averages; bulk of sales \$7.40 @ \$7.90; 180 to 200 pound hogs \$7.85 @ \$8.10; packing grades strong early pigs steady to 25c higher; top \$8.50; bulk best kinds \$8.25. Sheep—Receipts 17,000.
